

# Guest Users

One of the great features of the wiki is the ability to collaborate with individuals outside of the university. If a person does not have a HawkID, they can sign up for a guest account. This account can then be given permissions to access and edit wiki spaces.

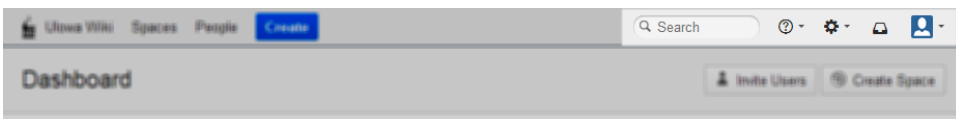

1. To sign up for a guest account, visit the wiki dashboard (<https://wiki.uiowa.edu>).
2. Select the 'Sign Up' link in the upper navigation menu (next to the wiki search field).

3. Complete the wiki account form and select the 'Sign up' button.

A screenshot of the 'Sign Up' form. The title 'Sign Up' is at the top left. Below it are five input fields: 'Full Name', 'Email', 'Username', 'Password', and 'Confirm Password'. Below the password fields is a CAPTCHA image showing the word 'blow ed' in a stylized font. Underneath the CAPTCHA is a text input field with the placeholder 'Type the word above'. A blue 'Sign Up' button is located below the CAPTCHA field. At the bottom of the form, there is a link: 'Already have a username and password? [Log in here](#)'.

4. You will be redirect to the wiki home page. Notice that the 'Log in' and 'Sign Up' links have disappeared, replaced by the user menus.

5. After a guest account has been created, it can be assigned permissions to wiki spaces just like a HawkID account. To do so, view the tutorial on editing [space permissions](#).
6. The next time a guest user returns to the wiki, they will need to sign in by clicking the 'Log In' link in the upper navigation menu.

 Unknown macro: 'rate'
